Lyse LNG Plant

Onshore processing facilities

Photo: Lyse / Skangass AS

The onshore processing facilities cover approximately 35.000 m². The plant produce 300.000 tonnes LNG daily for supplying to ships and tank lorries. The gas come through pipelines at the sea bed from Kårstø.

Linde AG had an EPCMA contract with LYSE (Skangass) and Multiconsult was Civil Consultants to Linde.

| PROJECT | PROJECT TYPE | LOCATION | CLIENT | TIME PERIOD | KEY NUMBERS |
|----------------|--------------------|---------------------|-----------------|-------------|-----------------------|
| Lyse LNG Plant | Detail Engineering | Risavika, Stavanger | Lyse (Skangass) | 2008 - 2010 | 35.000 m ² |
